

Notice of Hearing

September 27, 2013

Ref. 2013-H-103

The Canadian Nuclear Safety Commission (CNSC) will hold a hearing in September to consider the request from Atomic Energy of Canada Limited (AECL) for an exemption from the application of sections 15.01 and 15.02 of the *Class II Nuclear Facilities and Prescribed Equipment Regulations*, which require that a radiation safety officer be appointed for a licensee that operates a Class II nuclear facility. AECL is located in Chalk River, Ontario.

The Commission has determined that a public hearing is not necessary to consider the request from AECL in this case. The hearing will be conducted by way of written submissions from CNSC staff and AECL.

Following the deliberations and decision of the Commission on this matter, a *Record of Proceedings, including Reasons for Decision* will be published on the CNSC Web site and made available to the public.

CNSC staff's recommendations and the hearing submission from AECL are not available on-line and must be requested through the Secretariat at the address below:
