

Notice of Hearing

June 20, 2017

Ref. 2017-H-107

The Canadian Nuclear Safety Commission (CNSC) will hold a hearing in the next few weeks to consider a request from Hydro-Québec to modify the financial guarantee agreement for its Gentilly-2 nuclear facility and radioactive waste management facilities.

Changes have been requested to reflect the closing and future decommissioning of the Gentilly-2 facility and Hydro-Québec's decision to continue the facility's dormancy phase over several years.

The Commission has determined that a public hearing is not necessary to consider this application. The request is administrative in nature and does not raise matters related to the protection of health, safety, security or the environment that would warrant being considered in a public hearing. The Commission will consider written submissions from Hydro-Québec and CNSC staff.

The hearing submissions are not available on the CNSC website and must be requested through the Secretariat at the coordinates below.

Following the deliberations and Commission decision on this matter, a *Record of Decision* will be published on the [CNSC website](http://nuclearsafety.gc.ca) at nuclearsafety.gc.ca and made available to the public on request.
